

F⁻

Fluoride test

For fresh and salt water

Test preparation:

- 1 Fill both tubes up to the mark with the test water.

- 2 Put the contents of the **F⁻ R1 ampoule** into one of the two tubes (test), close with the screw top lid and mix.

- 3 Add **2 small** level measuring spoon of **F⁻ R2** to the test, close with the screw top lid and dissolve by shaking.

Measure after exactly 8 minutes reaction time.

Measuring with AQUA-CHECK:

- 1 Reference measurement.
- 2 Test measurement.

Immediate

You will find important information on your measurement value at www.aqua-check.de. Please observe the safety notes for handling chemicals (see rear).

F-

Fluoride test
